

**KONGLIGA  
ORIENTERINGS-  
TEKNOLOGERNA**

## **KONGLIGA ORIENTERINGSTEKNOLOGERNA IF BUSINESS PLAN 2021**

### **Introduction**

The Royal Orienteering Technologists (abbreviated KOT) was formed in 1982, and is an orienteering club based at the Royal Institute of Technology (KTH) in Stockholm, Sweden. KOT is a union association within the Technical University Student Union and today has about 30 members.

### **Management and Coordination**

KOT's operations are primarily coordinated by the members of the Board.

### **Activities**

KOT arranges trainings about 5-6 times a month during the semesters, usually from KTH Hallen. The scope and performance of trainings can be changed based on commitment and interest. Afterwards we get together to create good community and friendship.

### **Arrangement**

In addition to training, KOT organizes a number of traditional events, such as the Beer OL, Lusselöpet etc. KOT also plans to participate in Pampas Night. We hope these will go back to normal during autumn 2021.

We will be present as a representative on Student Union Day during our respective autumn, which is arranged for new students of THS. We are also investing in participating in the Jukola relay and the Nordic Student Championships in orientation (NSM), this year probably in Finland.

In addition, we try to get as many students as possible to run the Stockholm City Cup; a park orientation in Stockholm that takes place during a number of weekday evenings in May. Furthermore, we encourage students to participate in the Stockholm Indoor Cup – an orienteering event where you are supposed to manage map reading on multiple floor maps indoors!

In 2021, there is a goal to arrange the KTH Championships to strengthen the cash register and get OL -interested students to find us in KOT.

### **Goals**

- Offer training and fellowship, especially for students interested in training at KTH.
- Offer students at KTH the opportunity to participate in special orienteering events through KOT, such as Pampas Night and NSM.
- Increase membership by marketing KOT, both on Student Union Day and through visibility in various (social) media.
- Be more present on Campus through posters and smaller activities.

- Engage our members so that the business is run by everyone and not just the board/elected representatives. Try to get members to arrange training camps or similar.
- Practice theory at least once a month during our “*fika*” or before running.
- Continue with orienteering games like *rävjakten*, *keps-ol*, *tankstelle-ol*, *tårt-ol* etc!
- Try to arrange as much orienteering as possible when daylight allows it.
